

## Beacon Lighthouse Beanie Pattern

### Equipment

5mm hook

Aran weight yarn in white, yellow and blue/purple. Or two strands of DK held together. (I used Stylecraft Special DK).

Darning needle

### Pattern

Using main colour (blue or purple) Chain 21.

Sc in the 2nd chain from hook and in the remaining chains (20 stitches)

Turn.

Chain 1 (doesn't count as a stitch), sc in each stitch. Repeat for another 6 rows.

You should have 8 rows in main colour.

Change colour to white. Complete 6 rows as above in white.

Change back to blue/purple and complete 6 more rows.

Change to yellow and complete 6 rows.

Fasten off.

You should have a rectangle that looks a little like this (the stripes are different sizes here though).

If you want to sew a face on, now is the time to do it.

Fold lengthways and sew or slip stitch along the bottom and the side.

Fill with beans and fold the top in the opposite direction from the bottom. Sew or slip stitch closed.
